Old shoes or gateposts to waterfalls, autumn leaves or bumblebees ...

All these will be looked at differently as you accompany Ingrid and her thoughts ...

There will be tugs at the heart and some laughs along the way when you read about thoughts and feelings we have all had at some time or other travelling our own life's highway ...

There is much to discover ... then before you are finally through, continue the journey with her for a while longer in **inverse too** ...!

Ingrid brings to her writing not only life's experiences but also those as a migrant to Australia, her family's migration and her travels with her husband. Above all, she is certain that the good lord has a lot to do with the whole exercise.

Apart from two books of verse, she has completed books for children which she hopes to publish in the near future. Other projects include a book on her childhood, on her mother's life, to be entitled **A Mother's Trials, A Child's Tribute** and further stories for children ...

As she puts it ... So many tales to be told
Lie waiting in my head
Not quite whole
Yet not really dead ...
