Tunes appear in the same order on these sheets and on the CD

The tunes on the CD are my interpretation of the music printed in the book. Many were learned by heart, albeit temporarily, so the sense of the music could be better expressed. The consequent "feel" is the distillation of countless hours listening to, playing with and learning from the traditional Australian players from whom these were collected. I felt constrained however to stick to the notes as written as closely as my poor reading abilities would allow. This was to avoid confusion to those who get anxious when things don't match up. If I play these tunes as I normally would I would never play them the same way twice, I would add my own ornaments, slides, shivers, trills, whoops, chords, bangs and screeches, judiciously change the melodies to "improve" them and add my own personality into the mix.... and to the devil with those who would try to stop me! That is the way of the traditional fiddler.
